- (b) a personal care composition comprising no more than about 7% water, wherein at least one of said first and second sheet members releasably carries said personal care composition, and wherein said mitt is dry prior to being contacted with water.
2. (Original) A disposable nonwoven cleansing mitt according to Claim 1, wherein said second member is a stretch laminate and provides for adjustment to permit a variation in the size of said interior volume, to accommodate different hand sizes.
3. (Original) A disposable nonwoven cleansing mitt according to Claim 2, wherein said laminate is a three layer laminate comprising a layer of an elastomeric web sandwiched between two outer layers of nonwoven material.
4. (Original) A disposable nonwoven cleansing mitt according to Claim 1, wherein said mitt has a width between about 80mm and about 125mm.
5. (Previously presented) A disposable nonwoven cleansing mitt according to Claim 1, wherein said first nonwoven sheet member releasably carries said personal care composition.
6. (Previously Presented) A disposable nonwoven cleansing mitt according to Claim 1, wherein said first nonwoven sheet member comprises a nonwoven C-folded around the nonwoven high loft batting material.
- 7-9 (Canceled)
10. (Currently Amended) A disposable nonwoven cleansing mitt according to Claim 9, 1 wherein said polyolefin film is a polyethylene film.

11. (Original) A disposable nonwoven cleansing mitt according to Claim 1, wherein said personal care composition comprises a surface active agent, wherein said surface active agent is selected from the group consisting of anionic surfactants, cationic surfactants, amphoteric surfactants, nonionic surfactants, zwitterionic surfactants and mixtures thereof.
12. (Original) A disposable nonwoven cleansing mitt according to Claim 11, wherein said personal care composition further comprises an adjuvant, wherein said adjuvant is selected from the group consisting of enzymes, fragrances, pigments, essential oils, skin sensates, preservative, conditioners, hair conditioners, carrier, dye, antimicrobial agents, antioxidants, binders, buffering agents, chelating agents, solvents, film formers, humectants, glycerin, aloe vera, pantothenic acid, allantoin, bisabolol, dipotassium glycyrrhizinate, skin treating agents, binders, thickeners, hydrocolloids, vitamins and mixtures thereof.
13. (Canceled)
14. (Currently Amended) A disposable nonwoven cleansing mitt adapted to fit on a child's hand, said mitt comprising:
  - (a) first and second substantially complementary nonwoven sheet members in an overlying relationship, said first and second substantially complementary nonwoven sheet members independently comprising fibers selected from the group consisting of rayon, polypropylene, cellulose, polyesters, and mixtures thereof, and wherein said first nonwoven sheet member comprises comprising a nonwoven high loft batting material, said substantially complementary nonwoven sheet members defining an interior volume for receiving said child's hand, each of said first and second substantially complementary nonwoven sheet members including an exterior surface, having an opposing interior surface opposing said exterior surface, a top edge, a bottom edge opposing said top edge, and

first and second opposed side edges, said first and second substantially complementary nonwoven sheet members being secured to each other along the periphery of both of said top edges and both of said first and second opposed side edges, with at least a portion of said bottom edges being unsecured so as to provide an opening to said interior volume for inserting said child's hand therein, said second member comprising a polyolefin film attached to said interior surface of said second member, one of said first and second sheet member comprising printed matter on said exterior surface thereof, and at least one of said first and second sheet members is a stretch laminate and provides for adjustment to permit a variation in the size of said interior volume[.,.] to accommodate different hand sizes; and

- (b) a personal care composition comprising no more than about 7% water, wherein at least one of said first and second sheet members releasably carries said personal care composition, and wherein said mitt is dry prior to being contacted with water.

15. (Original) A disposable nonwoven cleansing mitt according to Claim 14, wherein said laminate is a three layer laminate comprising a layer of an elastomeric web disposed between two outer layers of nonwoven material.

16. (Original) A disposable nonwoven cleansing mitt according to Claim 14, wherein said first nonwoven sheet member releasably carries said personal care composition and comprises a nonwoven C-folded around a nonwoven high loft batting material.

17 - 18. (Canceled)

19. (Original) A disposable nonwoven cleansing mitt according to Claim 14, wherein said personal care composition comprises a surface active agent, wherein said
